

PALAWAN: Coron Travel Guide, A 5500 PHP Itinerary

<https://www.wanderhacker.com>

Coron Island is one of the most visited destinations in the Philippines because of its panoramic vista, powdery white beaches, brilliant blue and emerald-colored lakes hiding behind the towering karst limestones. Coron island is really a God's gift to humanity as it offers a paradise-like experience to all of its visitors. I promise to my self that I will surely explore other parts of Palawan in upcoming years.

I hope this sample Coron itinerary will help you plan your trip in Coron Island, Palawan.
